

Diligence fire as art

Spring News Letter

Diligence has had a very busy year with many exciting projects completed. To highlight a couple Hilton Hotel, Newbury North, had a refit and installed a stunning gas Meijifocus in their redesigned lounge area and the Rope & Anchor, Dunham Massey, part of the Decker Group, also underwent a major refit and incorporated both a Pictofocus 1200 and a Paxfocus fire into their project.

A particular favourite is an installation for Peter & Anne Chalke whose property will be featured in an episode of To Build or Not to Build which will be shown later this year. Their property is truly stunning and we wish them both many happy years in their new home enjoying the benefits of their beautiful fire which provides a wonderful focal point to their open plan room.

We can now include traditional slate or clear glass hearths with your order. Or why not have a stunning new coloured glass hearth which can be matched to suit your colour scheme.

We look forward to hearing from you soon to discuss your requirements. Don't forget to check out our web site where you can now access an online catalogue.

SPECIAL SPRING OFFER

As this financial year comes to a close we would like provide our clients with a delightful Spring Offer for all orders placed during March 2011. All Focus orders will receive a special package price on the supply & fit of all components required (saving up to 15%) and each order will also receive our exclusive accessory kit, a Cadifocus log holder (with tools) & a set of Bellows completely free of charge (RRP £550). This will ensure that you receive absolutely everything required to install a Focus fire and will enable you enjoy the fires beauty straight away- all you need to do is remember to buy some wood—well seasoned of course!!
